Alexandria, VA 22313-1450***

Dear Sir:

This is in response to the official action of October 2, 2003.

A petition for a one month extension of time to reply is being filed concurrently herewith.

Applicant herewith traverses the restriction requirement and provisionally elects claims 1 through 20 drawn to the semiconductor device.

It is believed that all the claims should be examined together, in that a search drawn to the semiconductor device should overlap with one drawn to the method of manufacturing of a semiconductor device, and that therefore, in the interest of overall efficiency on the part of applicant and the Office, all claims should be examined together. However, the required election has been made to the claims of group I.

Respectfully submitted,

John F. McNulty
